

Dear guests,

to guarantee you a stay in complete safety and a dream vacation without depriving yourself of its emotions, Chalet del Sogno has implemented a Covid-19 safety protocol following the guidelines of the World Health Organization and the prevention measures provided by local and national authorities, in particular Federalberghi, the Autonomous Province of Trento, ASAT Trentino Hotel Associations and the protocol Trentino Secure Clean.

This series of indications adds to the already high standards that our structure operates. Three cornerstones, yours and our health, everyone's safety and an even more attentive service.

SANITISATION AND DISINFECTION

Our property, thanks to its thermo-ventilation system created within the bio-architecture project, allows a constant and continuous exchange of fresh air from the outside, both inside all the rooms and in all the common areas, ensuring one of the main prevention guidelines, the ventilation of the spaces.

In addition to the high cleaning standards that have always characterized us, with natural based products respecting your health, the environment and eco-sustainable policies, our 18 Suites as well as the common areas are sanitized with alcohol-based antiviral solutions higher than 70% or sodium hypochlorite with percentages of 0.1% or 0.5%.

All the equipment and dishes at your disposal, are constantly sanitized. Inside the hotel you will also find various corners with hand sanitizing gel, temperature will be taken at your arrival and in your Suite you will find a recycled aluminum water. With this little gift we would like to guarantee our guests the possibility of always obtaining our pure water, avoiding problems related to the search for plastic bottles and at the same time further eliminating the consumption of monodose plastic.

ARRIVAL AND RECEPTION

Our staff will welcome you, as usual, on the spacious living room comfortably sitting on its sofas, where attention, distance, courtesy and pleasure will accompany your check-in. The safety distance is guaranteed, with the desire to make you feel at home from the first moment.

To ensure the safety of all, we remind our guests that if the body temperature exceeds 37.5 °, access will not be allowed.

OUR TERRITORY AND NATURE

We are located within the Adamello Brenta Natural Park, the largest protected area in Trentino and one of the 52 European Geoparks, in the presence of the Brenta Dolomites, a World Heritage Site and the immense Adamello glacier.

This vast territory allows a variety of outdoor activities also in winter, for every need and level. Among those, it is a paradise for backcountry and mountaineering with countless itineraries, trekking on wonderful well signed snowy trails, snowshoes excursion together with the guides, horses, sleddog and much more.

SKIAREA CAMPIGLIO DOLOMITI DI BRENTA

One of the very bests and glamour in the Alps, waiting for you will be the so-called "White Madonna", as described by the first skiers back in 1911, and the splendid SkiArea Campiglio Dolomiti di Brenta with its 70 ski lifts to offer and 100 perfectly groomed slopes, 4 ski resorts connected without the need for buses or shuttles, a single ski pass. Skitrail for all levels, a basin surrounded on one side by the Brenta Dolomites and on the other by the Adamello Presanella mountain range, where skiing moves with the sun. But not just skiing, for fans of evolutions the Ursus snowpark is one of the most important in Europe.

Campiglio is a ski in ski out resort, the slopes end directly in the village thus avoiding the use of shuttles and transfers, moreover the 4 main lifts of Madonna di Campiglio allow to divide the guests into various areas.
